- ◆ Applies a precise coating that's always smooth and even
- ◆ Provides excellent UV, abrasion and water protection
- ◆ Maintains the flexibility of the media
- ◆ Enhances the vibrancy of the inks
- ◆ Will not crack or peel off - Satin & Gloss Finish
- ◆ Available in 4 widths - 685, 1220, 1395 & 1575mm

1. Insert the two braces into the back of the EZ Glide

2. Hook the braces onto the edge of the table or worktop

3. Pour the coating into the back of the tray

4. Swivel the coating rod up and place the print over the tray, with the first 50cms extended over the front

5. Lower the coating rod so that the first 50cms of the print is immersed in the coating

6. Pull the print smoothly and easily through the machine

7. At the end of the day, loosen the screws and remove the top half of the unit for cleaning in water

8. Drain the unused coating into the bottle and clean the tray with water.
