- ***Cut your foil in house***
- ***Foil wastage becomes a thing of the past***
- ***No more waiting for your foil supplier to deliver***
- ***Quicker Turnaround times for your customers***

“A Caslon powered foil cutter is an inexpensive must for all foil printers”

The Heavy Duty Caslon powered foil cutter can handle rolls up to 305 metres in length.

These rolls of foil are slipped over a steel shaft that is fitted with a soft aluminium cover (which prolongs the blade life).

A locking mechanism grips the inside of the roll core.

A large circular blade, mounted on a handle, can be positioned along a support shaft and secured in position at the correct cutting point.

Starting the electric motor, and simply lowering the blade handle, accurately and cleanly cuts through the foil and supporting core.

If the blade dulls, it can be rotated to a new, sharp position.

Turn a good foiling business into a Great Foiling Business!

Specifications

Machine Size:	1020 x 230 x 320 (h) mm	Core Diameter:	25.4mm (1 inch)
Machine Weight:	15.5 kilos	Maximum Roll Width	670mm
Machine Size Packed:	1040 x 250 x 330 (h) mm	Maximum Roll Length	305 metres
Machine Weight Packed:	17 kilos	Electrics:	220Volts AC
