**Give your
folded documents
that professional finish**

- **Quick**
- **Simple**
- **Accurate**

**...and put Profit
into Your Business!**

The Caslon ProCrease Creasing machine is a must for any busy finishing department. The ProCrease is a robust, hand fed machine specifically designed to give maximum flexibility and quality for every type of finished product.

Two, adjustable paper stops are included to allow for single or double crease work to be completed simply and easily.

Accurate side guide scales ensure a good quality crease, in the correct position, is easily achieved!

With a creasing width of 450mm and a maximum, fully supported stock size of 450 x 600mm, the ProCrease is an impressive addition to any finishing department.

Capable of creasing stocks from 40gsm to 400gsm the range catered for is second to none and the machine is a definite must for any serious printer!

The creasing rule and matrix are specifically designed to ensure a good quality crease is produced, thereby eliminating cracking in today's, digital stocks.
