The PS Series, Powdering Section range of machines were specifically developed as stand alone, fully automated powdering section units for the application of adhesive powders used by the heat transfer industry.

Available in 38, 51, 76 and 104cm wide versions, each one features an exclusive moulded cast aluminium vacuum head which focuses the vacuum precisely to the substrate surface allowing for a crisp, clean product every time.

It can operate independently offline or inline with high production presses.

The variable vacuum control, which increases and decreases vacuum, will accommodate powder as fine as 60 microns and as coarse as 200, thereby allowing for a varied and wide range of designs and effects to be achieved.

## *Specifications*

Model	Length	Width	Height	Weight	Power	Max stock
PS15	240cms	78cms	138cms	285 Kgs	415v/15A	38cms
PS20	103cms	107cms	176cms	380 Kgs	415v/15A	51 cms
PS30	103cms	133cms	176cms	435 Kgs	415v/15A	76cms
PS40	103cms	158cms	176cms	475 Kgs	415v/15A	104cms
